

Solar PV and EESS Installer / Electrician

- 📍 Based out of the Dartington office, South Devon
- 💰 £40,000 – £46,000 + progression opportunities
- 🕒 Full-time, permanent

Join a growing renewable energy company making real impact

Be part of the energy revolution! Bloom Renewables is a rapidly expanding clean energy business based in Dartington, South Devon. We are passionate about supporting society's transition to a greener, cleaner future.

We're looking for a highly motivated, experienced **Solar Electrician** to join our installation team. You'll be responsible for the overall performance in the field, with a focus on quality, compliance and technical excellence.

Ideally, we're looking for an individual with extensive experience within solar PV and battery storage. We're also looking at other renewable generation equipment like wind and hydro, so a willingness to learn new technologies is a must.

Why join Bloom Renewables?

- Competitive salary (£40k–£46k depending on experience)
- Overtime and staying away pay
- Bonuses
- Opportunity to grow with a rapidly expanding company
- Supportive, close-knit team
- Training and development in emerging technologies (battery storage, EV, etc.)
- Be part of a purpose-driven business in the clean energy sector

The Role

T: 01803 200666 E: info@bloomrenewables.co.uk | Bloom Renewables, A Shinnars Bridge Workshop, Dartington TQ9 6JY | Company No. 771533

You'll be responsible for installing, maintaining, and supporting solar PV and battery storage systems, ensuring all work is carried out safely, efficiently, and to the highest standard in line with internal/external regulations and standards.

You'll work closely with other electricians, installers, and project stakeholders to deliver successful installations and be responsible for the specification and procurement of materials and equipment.

Key Responsibilities

- Install, maintain and repair electrical systems and equipment
- Carry out electrical work in line with regulations and company standards
- Read and interpret electrical blue prints and technical diagrams
- Troubleshoot electrical issues and provide solutions
- Work collaboratively with the wider installation team
- Ensure compliance with electrical codes and regulations
- Ensure all work is completed safely and compliantly
- Maintain a clean, safe and organised work environment
- Coordinate with other trades and contractors on job sites

What we're looking for

Essential:

- Proven experience as a qualified electrician, with experience in the field/NAPIT
- Solar PV installation experience
- 18th Edition Qualification
- Inspection & Testing (2391 or equivalent)
- Strong fault-finding and problem-solving skills
- Full UK driving licence

T: 01803 200666 E: info@bloomrenewables.co.uk | Bloom Renewables, A Shinnars Bridge Workshop, Dartington TQ9 6JY | Company No. 771533

- Ability to read and interpret blueprints, technical diagrams, and schematics

Desirable:

- NAPIT (or equivalent)
- Experience with battery storage (ESS)
- EV charger installation experience
- Experience working on commercial projects

About You

- Reliable, proactive, and solutions-focused
- Takes pride in delivering high-quality work
- A strong team player with a positive attitude
- Well organised and able to manage workload effectively
- Good communicator with colleagues and clients
- Must have relevant Electrical qualifications

We are a small team in a fast-growing business that is constantly evolving. It is important to us that everyone is enlivened by their work with us. We are looking for someone who is excited to contribute, who has creative solutions for what is needed and who naturally enjoys being of service within the team. Of course, you're also passionate about clean energy and a zero-carbon society!

If this sounds like you, we'd love to hear from you.

Apply now

If you're ready to step into a leadership role and grow with a forward-thinking renewable energy company, we'd love to hear from you.
